10 Favourite Lists

Enjoy Austrian satellite programmes in HD!

With the HD satellite receiver THS816 it is easier than ever to enjoy the Austrian satellite programmes (without smartcard) via ORF DIGITAL DIREKT as well as digital Free-To-Air TV and radio programmes. In addition, you can also add a simpliTV SAT HD subscription and watch even more programmes in HD. The recall list for up to 30 channels, 4 pre-sorted channel lists, 10 favourite lists and a memory capacity of 5000 channels are only a few of the many great features. An infrared extender is included in the packaging. You can place the receiver in a locked cabinet or in another hidden place and put the infrared extender on a convenient place and you will be able to operate your receiver without direct visual contact. Furthermore, the USB port offers you the opportunity to play your favourite files from external USB devices or update the receiver software – all in one device!

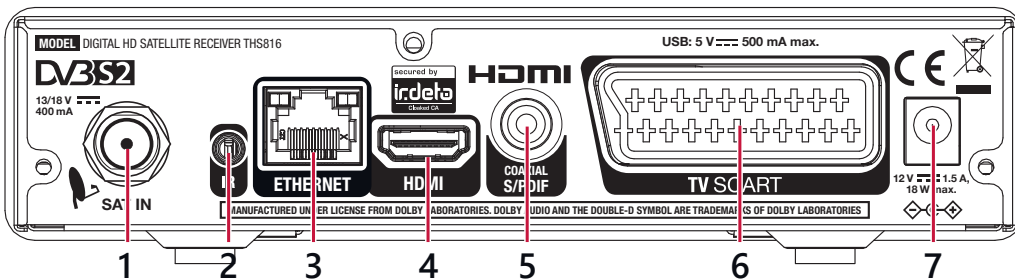

Digital HD Satellite Receiver

THS816

- Reception of Austrian satellite programmes in HD via ORF DIGITAL DIREKT and simpliTV
- Reception of digital Free-To-Air TV- and radio programmes¹
- 4 pre-sorted channel lists to choose for a quick & easy installation
